PROFESSIONAL SUMMARY

AI Product Manager and Founder who built Talentlo—an AI-native hiring platform—from 0 to 2,500+ signups with 64% activation. Strong in product discovery, AI system design, user research (200+ interviews), PRD writing, and GTM execution. Proven ability to validate markets, define requirements, and execute cross-functionally in early-stage environments. Targeting Product Manager, Chief of Staff, and Founder's Office roles.

SKILLS

Product: PRD Writing, Roadmapping, Feature Prioritization, User Research, Market Validation, Product Discovery
AI & Data: LLMs (Claude API, GPT API), Embeddings, Vector Search, SQL, Amplitude, Mixpanel, Google Analytics
GTM & Sales: LinkedIn Outreach, Cold Email, Enterprise Sales, MoU Negotiation, VC Pitching
Tools: Jira, Asana, Figma, Zoho SalesIQ, ReactJS, JavaScript, API Integration, Agile/Scrum
Domains: HRTech, SaaS, AI-Powered Automation, Enterprise Products

PROFESSIONAL EXPERIENCE

Founder & Product Lead

Talentlo (AI-Native Hiring Platform) | Lucknow, India | Apr 2025 – Feb 2026

- Built AI hiring platform from 0 to 2,500+ signups with 64% activation rate (1,600 users completed onboarding and AI screening)
- Designed AI candidate screening system reducing manual resume review by 80%—auto-surfaces top 20 candidates from thousands of applicants; collaborated with CTO who implemented using Claude 4.6, GPT-4o-mini, and vector search
- Conducted 200+ user interviews to identify hiring bottlenecks (ghosting, inefficient screening), wrote PRDs defining AI matching logic and retention signals, prioritized features using user data
- Closed 10+ enterprise MOUs with startups and mid-size companies through outbound sales (LinkedIn, cold email) across US, UAE, and Asian markets
- Secured Rs.1 Cr+ (~\$120K) in cloud credits from Microsoft, NVIDIA, and DPIIT (Govt. of India); pitched to 10+ VCs demonstrating product-market fit
- Led cross-functional team (engineering, design, ops) using Agile/Scrum to deliver on-time releases in pre-revenue beta

Frontend Developer & Product Contributor

BlueCoin IoT Solutions Pvt Ltd | Pune, India | Oct 2022 – Apr 2025

- Owned contract management and asset management modules end-to-end—gathered stakeholder requirements, wrote specs, prioritized features, and drove execution
- Redesigned 30+ modules in ReactJS (desktop-only to responsive), enabling mobile adoption and improving user engagement by 15% (Google Analytics)

- Built reusable component library reducing frontend dev time by 30%; collaborated with PMs and designers (Figma) for rapid prototyping
- Delivered 100% on-time releases via Agile/Scrum (Jira, Asana); provided technical feasibility input in product planning

Product Management Fellow

Next Leap | Remote | Jan 2024 – May 2024

- Completed 4-month Product Management Fellowship: product strategy, roadmapping, user research, competitive analysis, Agile
- Applied frameworks (RICE, ICE, user journey mapping) through capstone projects and real-world SaaS case studies

EDUCATION

MBA – IT & Fintech | Manipal University Jaipur | CGPA: 7.8/10 | 2023–2025

Coursework: Product Management, Digital Transformation, Enterprise Strategy, Financial Technology

B.Sc. | CSJM University, Kanpur | 65% | 2019–2022

CERTIFICATIONS

- Product Management Fellowship – Next Leap (2024)
- Google Project Management Professional Certificate – Coursera (2024)
- AI For Everyone – DeepLearning.AI (In Progress)
- Management Consulting – Emory University via Coursera (2023)

RECOGNITION

- Awarded Rs.1 Cr+ in cloud credits by Microsoft, NVIDIA, DPIIT (Govt. of India) for AI innovation
- Selected for Wadhvani Foundation Liftoff Program (startup acceleration)
- Pitched to 10+ global VCs; received "show traction" feedback (currently executing)
