EDUCATION

Mangalore Institute of Technology and Engineering, Moodabidre <i>Bachelor of Engineering-Artificial Intelligence and Machine Learning</i>	2021-2025 CGPA: 8.89
Dr. NSAM PU College, Bangalore <i>Senior Secondary</i>	2020-2021 Percentage: 90
St. Ann's High School, Bangalore <i>Secondary School- ICSE</i>	2019-2020 Percentage: 88

WORK EXPERIENCE

Mphasis <i>Associate Software developer</i>	Nov. 2025 – Present <i>Pune</i>
- Part of the Kafka team, where I Worked with Apache Kafka to understand producer–consumer workflows, topic partitioning, offset management, and consumer group behavior in real-world scenarios. - Gained practical exposure to event-driven architecture and real-time data streaming workflows by working alongside the Kafka team and understanding production use cases and best practices.	
Trainee Associate Software Engineer	Feb. 2025 – May. 2025 <i>Pune</i>
- Trained in Java, Spring Boot, Angular, and MySQL, gaining hands-on experience in building full-stack enterprise applications using layered architecture and RESTful APIs. - Designed and developed a banking web application with features like user authentication, account management, and transaction handling, ensuring secure backend integration and efficient database operations.	
Pixuate <i>Intern</i>	Oct. 2023 – Nov. 2023 <i>Bangalore</i>
- Trained on Python, OpenCV, and YOLO for computer vision tasks, focusing on image processing and real-time object detection concepts. - Worked on data annotation and dataset preparation, labeling images and understanding bounding boxes, classes, and model input requirements to support object detection pipelines.	

SKILLS & INTERESTS

- Programming Languages:** Java, Python, JavaScript, SQL, Bash.
- Frameworks & Technologies:** Spring Boot, REST APIs, Angular, MySQL, Apache Kafka (fundamentals), Git, GitHub, OpenCV, YOLO
- Skills:** Backend and Web Development, REST API Integration, Database Management (MySQL), AI-Assisted Development (GitHub Copilot, Cursor, Large Language Models), Third-Party API Integration (basic)
- Interests:** Chess; Logical Puzzles; Traveling;
- Languages:** English, Japanese(n4)

PROJECTS

AI Interview Bot
- Developed an AI-powered interview bot that accepts a resume as input and dynamically generates role-relevant interview questions. - Built the backend and frontend using Python and Django, handling resume processing, session flow, and response management. - Integrated the Grok API from xAI to generate interview questions and evaluate candidate answers based on relevance and quality.
