Experience

Srizon Consulting Pvt LTD

SAP SD Associate Consultant

Bangalore, Karnataka

Oct 2022 - Present

Project 3

Client : The Acetech Machinery Components India Pvt Ltd.

Version : S/4 HANA (2023)

Type of Project : Support Project

Duration : Aug 2024 to till date

Supporting Partner : Srizon Consulting PVT LTD

- Delivered L2/L3 support for SAP SD in S/4HANA environment ensuring smooth O2C operations.
- Handled incident tickets using ServiceNow with priority-based resolution and RCA documentation.
- Executed configuration changes for document types, pricing elements, item categories, and schedule lines.
- Monitored IDocs, analyzed failures, coordinated with ABAP teams for fixes, and ensured successful reprocessing.
- Supported year-end closing, enhancements, and continuous process improvements.

Project 2

Client : Paramount Textile Mills (P) Ltd.

Version : S/4 HANA (2023)

Type of Project : Implementation project

Duration : June 2023 to July 2024

- Performed SD module configuration including Sales document types, Item categories, Schedule lines, Pricing procedures, and Credit Management.
- Prepared Functional Specifications for enhancements & Z-reports; collaborated with technical teams for development.
- Conducted integration testing, prepared UAT scripts, documented results, and supported cutover & Go-Live activities.
- Executed master data migration using LSMW ensuring accurate transformation into production systems.
- Delivered end-user training and post-Go-Live hypercare support.

Project 3

Client : Meneta Automotive Components.

Version : SAP S/4 HANA (2021)

Type of Project : Support Project

Duration : October 2022 to May 2023

- ◆ Resolved daily SAP SD tickets ensuring BAU continuity for O2C business processes.
- ◆ Handled incident & change requests via ServiceNow with SLA-bound resolution and RCA analysis.
- ◆ Supported Z-report development, SD configurations, and enhancements for pricing & outputs.
- ◆ Provided 2nd & 3rd level support, user guidance, and SAP navigation training.
- ◆ Used SERVICE NOW tool to monitor the client requests for incidents and change orders.

Accomplishments

- Improved O2C cycle efficiency by implementing configuration enhancements for pricing & returns process.
- Played a key role in successful S/4HANA Go-Live and post Go-Live support for two client projects.
- Prepared 10+ Functional Specification documents for enhancements, Z-reports.
