Phone number: 080-4807-8566
Permanent Resident in Japan
English (*Native level*), Japanese (*Business Level*)

SUMMARY

Result-driven data Analyst with 6+ years of international experience in statistical modeling, operational analytics, and cross-functional coordination across Japan, Ireland, and India. MBA graduate with strong expertise in SQL, R, Excel, Tableau, and predictive analytics. Proven ability to transform complex datasets into actionable insights that improve operational efficiency and support strategic decision-making. Bilingual in English and Japanese with Permanent Resident status in Japan. I am currently seeking a full-time position where I can apply my analytical capabilities, strategic thinking, and expertise in IT and AI.

Core Competencies:

Data & Analytics:	SQL, R (Regression, Statistical Modeling), Excel (Advanced formulas, Pivot Tables, VBA), Tableau (Dashboard creation, KPI tracking), Data Modeling, Predictive Analytics, C++.
Business & Project Skills:	Market Research, Business Modeling, KPI Monitoring, Process Optimization, Stakeholder Coordination, Cross-Cultural Communication
Tools:	PowerPoint, Notion, Slack, Canva, Zapier
Communication & Collaboration:	Stakeholder Engagement, Cross-Cultural Teams, Bilingual (EN/JP)

PROFESSIONAL EXPERIENCE

1. Amazon Japan, Tokyo (*Associate*)

October,2025- Present

Work outline:

- Analyze dispatch and routing datasets to identify operational bottlenecks and improve peak-time efficiency.
- Monitor scanning accuracy and compliance KPIs to maintain high operational quality standards.
- Support route optimization initiatives through performance tracking and workflow analysis.
- Develop structured reporting frameworks to improve data visibility for team leaders and operations managers.

2. Growth X Partners, Internship (*Business Analyst*)

June, 2025-August,2025

Work outline:

- Conducted market and competitor analysis to design scalable business models for a mobile application.
- Built Excel-based financial simulations (cost, revenue, break-even analysis).
- Automated recurring reports using R and Excel, improving reporting efficiency.

- Created investor-ready dashboards and presentations visualizing financial and market KPIs.

3. Residential Tokiwadai, Yokohama (Operation Coordinator) August 2020- August 2024

Work Outline:

- Managed bilingual administrative operations and structured internal reporting systems.
- Improved reporting workflow efficiency through standardized data tracking.
- Analyzed operational and sustainability-related data to generate management insights.
- Designed bilingual reporting formats to enhance cross-team communication.

4. Japan International Corporation Center (trainee) August, 2018- August, 2020

Work Outline:

- Completed intensive Japanese language training, achieving N2-level communication proficiency.
- Developed strong understanding of Japanese business etiquette and corporate culture.
- Applied communication skills in practical team-based workplace training environments.
- Demonstrated adaptability and professionalism within Japanese organizational settings.

5. United Nation University, Tokyo, Japan (Researcher- data analyst) August 2015- August, 2016

Work outline:

- Conducted regression and correlation analysis supporting environmental policy research.
- Performed geospatial and statistical analysis on environmental datasets.
- Generated evidence-based analytical reports for international stakeholders.

6. Sardar Patel University, Gujrat, India (Research Assistant- data analyst) October, 2013 – October,2014

Work Outline

- Supported multiple academic research projects through structured data collection, validation, and maintenance.
- Ensured high accuracy in data handling, documentation, and research reporting.
- Assisted in methodology training and statistical support for research teams.
- Coordinated project communication and scheduling to maintain research timelines.

7. Dublin City University, Dublin, Ireland (Research Associate- data analyst) July 2007- November 2011

Work outline:

- Applied advanced statistical modeling to DNA methylation and cancer-related genomic datasets, generating insights into epigenetic mechanisms.
- Conducted genomic and proteomic analysis, including Tp53 gene research, using bioinformatics tools and sequence alignment techniques.
- Designed and developed the *PathEpigen* bioinformatics database to support academic research collaboration.
- Integrated and aligned large-scale biological datasets to improve analytical accuracy and research reproducibility.
- Utilized tools including BLAST, CLUSTALW, PHYLIP, PDB, and C++ for sequence and protein analysis.

AWARDS, CERTIFICATIONS and ACHIVEMENTS

Scholarship:

- Recipient of school of computing department scholarship in 2008 from Dublin City University, Ireland.
- Recipient of prestigious SFI (Science foundation of Ireland) scholarship in 2009.

Publication: Porwal, J. et al. (2008). Microscopic model of epigenetic mechanisms in XX International Congress of Genetics (Berlin, Germany, July 2008).

Certificates:

- Statistics for the Genomic Data and Excel Skills in Business: Advanced, from John Hopkins University 2023.
- Japanese Language Proficiency Test (JLPT N3 certified, Business-level communication).

EDUCATION

- | | |
|--|-----------|
| • MBA, Graduate School of Management, GLOBIS University, Japan | 2024-2025 |
| • Master of Science (Research) Computer Biology (Dublin City University, Ireland) | 2009-2011 |
| • Master of Science (Bioinformatics) (Sikkim Manipal University, India) | 2005-2007 |
| • Bachelor of Science (Biology and Chemistry) (Kanpur University, India) | 2002-2005 |

Personal Information

Address: Edogawa-Ku,Tokyo

Personal Interest: Playing Tennis, Listening music, Reading books, and Chat with family & friends
