EDUCATION

Syracuse University - College of Engineering & Computer Science, Syracuse, NY

August 2022 - May 2024

Master of Science in Cyber Security - **GPA- 3.3/4**

Atharva College of Engineering – University of Mumbai, Mumbai, India

July 2014 - May 2018

Bachelor of Engineering in Electronics and Telecommunication Engineering

EXPERIENCE

Cyber Security Engineer, Trixter Cyber Solutions Pvt Ltd, Mumbai, India

November 2021 – August 2022.

- Applied advanced skills to recognize, confirm, and comprehend over 1000 cyber events, fortifying the organizational security posture and mitigating potential risks.
- Implemented cutting-edge Security Information and Event Management (SIEM) tools for real-time threat detection, cybersecurity measures, and minimizing vulnerabilities across a network serving 500+ devices.
- Conducted comprehensive vulnerability assessments and penetration testing activities, identifying, and addressing weaknesses in systems and applications, resulting in a 30% reduction in potential security threats.
- Led 15 security reviews, audits, and incident coordination efforts, collaborating with Incident Response Teams (IRTs) to provide strategic recommendations for continuous improvement and enhance incident response capabilities.
- Guided pre-sales initiatives for a diverse range of cybersecurity products, resulting in an impressive 25% increase in the sales pipeline. Achieved a noteworthy 15% increase in company revenue by effectively managing cybersecurity product pre-sales for a portfolio of 10+ products.
- Oversaw and optimized Standard Operating Procedures, contributing to a substantial 20% increase in sales revenue and strengthening the sales pipeline through enhanced operational efficiency in a team supporting 20+ clients.
- Educated and onboarded 10 new sales team associates, partners, and vendors on cybersecurity products and services, fostering professional development and instilling comprehensive product knowledge.

Solution Engineer-Presales, Micropoint Computers Private Limited, Mumbai, India

June 2018 - October 2021

- Devised and tailored customized IT solutions for clients, addressing specific business needs through the seamless integration of custom applications and technologies. Delivered solutions that resulted in a 15% increase in client satisfaction and a 20% boost in repeat business.
- Initiated a comprehensive SIEM system overhaul, optimizing detection and response capabilities, resulting in a 50% reduction in threat response time and a 40% increase in threat detection accuracy.
- Conducted vulnerability assessments, identifying and remediating 30+ high-risk vulnerabilities, and bolstering the organization's security posture.
- Contributed to various security testing projects, including Web Application, Mobile Application, and Network/Server Security, assisting in the discovery and mitigation of 20+ critical vulnerabilities.
- Maintained precise documentation of 100+ security incidents, alerts, and investigations, ensuring a comprehensive record of security activities.

PROJECT EXPERIENCE

Smartphone User Identification Using Multi-Modal Sensor Data

January 2023 – April 2023

- Engineered a groundbreaking user authentication system, utilizing multi-modal sensor data from smartphones and Google Glass. Achieved a 30% increase in user identification accuracy. Integrated microphone and camera sensors, resulting in a 25% improvement in voice and face recognition accuracy, enhancing system security.

Prevention of Phishing Attack in Online Voting System by using Visual Cryptography

August 2022 – December 2022

- Led a team in the successful execution of a project, resulting in a 30% advancement for online voting systems. Strengthened authentication protocols and implemented Visual Cryptography to thwart phishing attacks, leading to a 30% reduction in phishing attempts.

TECHNICAL SKILLS AND TOOLS USED

Security skills and knowledge

Web vulnerability scanning Nessus, Burp suite, and Tenable for vulnerability assessment.

Managed SIEM, Splunk, SOC, Technical Presales, Information security, and Information Security, networking, and security protocols, IPv4/IPv6, the OSI model, TCP/IP, UDP, and routing protocols.

Risk Management, SIEM, Incident Management

Other skills and coursework knowledge

Self-directed coursework focusing on XSS, CSRF, and SQL vulnerabilities, resulting in a 95% average course score.

CERTIFICATIONS

VMware Certified - Data Center Virtualization

ISC2 Certified in Cybersecurity (CC) Cert Prep

CompTIA Security+ ce Certified.

Google Cybersecurity certificate by Coursera

Splunk Search Expert by Coursera
