PROFESSIONAL SUMMARY

RPA Professional with hands-on experience in UiPath automation solutions. Skilled in analyzing business processes and designing scalable automation workflows using industry best practices. Strong understanding of exception handling, orchestration, and structured automation frameworks. Possess foundational knowledge of DevOps concepts and cloud environments.

EXPERIENCE

RPA Developer Intern

(4- Months)

India Metal One Steel Plate Processing (Japanese Company)

- Developed and supported automation workflows using UiPath for business processes.
- Assisted in analyzing manual processes and identifying automation opportunities.
- Implemented automation using REFramework with proper exception handling.
- Worked with selectors, data scraping, and PDF automation.
- Collaborated with team members to deploy and monitor bots using Orchestrator.

TECHNICAL SKILLS

RPA Technologies

- UiPath Studio, UiPath Orchestrator, UiPath Assistant
- Logging, Debugging Techniques
- REFramework, Selectors, OCR, Data Scraping, Screen Scraping
- PDF Automation (Structured & Semi-Structured)
- Queues, Assets, Triggers, Exception Handling
- Attended and Unattended Automation

DevOps & Cloud (Basic Knowledge)

- CI/CD concepts
- Git version control
- Docker fundamentals
- AWS EC2 and S3 basics

EDUCATION

B.Tech in Computer Science

2021 – 2025

Siddharth Institute of Engineering and Technology, CGPA: 7.11 (67.55%)

Class 12 – Board of Intermediate Education

2019 – 2021

Percentage: 67%

Class 10 – Board of Secondary Education

2018 – 2019

CGPA: 9.3

RPA PROJECTS

Invoice Processing Automation

- Designed unattended automation using UiPath Document Understanding.
- Implemented REFramework for transaction-based processing.
- Integrated Excel automation for validation and reporting.
- Achieved 75% reduction in manual processing time.

HR Onboarding Process Automation

- Automated onboarding workflow including system entry and emails.
- Used Orchestrator queues for transaction management.
- Built dynamic selectors and strong error handling.
- Reduced onboarding time by 60%.

CERTIFICATIONS

- UiPath RPA Developer Foundation
- NPTEL - Industrial IoT 4.0
